**PERFECTION IN
CRAFTSMANSHIP
IS ZALTO'S GUIDING
PRINCIPLE**

That is why Zalto glasses have always been made from selected raw materials in elaborate traditional craftsmanship. The fine design of the glasses demands the utmost skill from the glassblowers. The handwork is reminiscent of the filigree artistry of Venetian glass artists of the Renaissance.

Developed with the aim of prioritising the perfect enjoyment of wine while allowing the glass itself to take a backseat through weightlessness. Relentless precision combined with an appreciation for wine reduces the glass to its essentials. Combining centuries-old craftsmanship with a modern, detailed aesthetic plus a featherweight feel with impressive functionality." (www.zaltoglas.at)
